The diagram illustrates a linear increase in a quantity over time. The horizontal axis represents time, and the vertical axis represents the quantity. The black triangle shows that the quantity starts at zero and increases at a constant rate, reaching its maximum value at the end of the time period shown.

The image shows a document page with a large black triangular graphic on the left side, pointing towards the top-left corner. The right side of the page is white and contains several horizontal lines, suggesting a table or form. A small, bold black number "6" is positioned near the top of the white area, between two horizontal lines.
